Summary

I'm a software/web developer specializing in creating(and sometimes designing) exceptional websites, applications, and everything in between.

Experience

Software Developer
UTalk Philippines

Aug 2019 - Present (1 year 4 months +)

Web System Developer
Dap-ayan Eatery La Trinidad Benguet

Aug 2018 - May 2019 (10 months)

- Participated as an author and a project developer of their own private Ordering Management System
- Technologies used are MySQL, CodeIgniter

Graduate Student
Kings College Of The Philippines

Jun 2015 - May 2019 (4 years)

I graduated from this awesome school. I added it as one of my experiences because it is where I started typing codes on a keyboard, created some projects, and made simple applications like calculators, websites, and others. The School also conducted seminars about technologies, etc.

Designer and Web Programmer
Ilearn Skills Development Academy

Aug 2018 - Dec 2018 (5 months)

- Created web designs for wonderful clients
- Maintaining their system as well as their website

Education

Kings College of The Philippines
Bachelor of Science in Information Technology, Computer Software and Media Applications

2014 - 2019

Skills

Vue.js • Ruby on Rails • MongoDB • Lumen • AngularJS • PHP • CodeIgniter • JavaScript • HTML • Cascading Style Sheets (CSS)
